

TEXO INC.

The activity in the Americas serviced by Texo Inc has not been what we expected during the first months of 2009. We have seen increased activity lately; however, we will more than likely be faced with a lower than normal level of activity for the rest of the year.

Texo Inc is about to celebrate its Twenty Fifth anniversary in May. We will celebrate with a positive attitude and outlook for the future. To be positive in these times is not difficult when being part of the Texo organization with all its resources and dedicated management who tirelessly push the limits of our technology to meet the demand of our customers. It is exciting to say the least and I am looking forward to meeting with each of you to keep you informed regarding our new products. We at Texo Inc are at the moment working with a number of customers on various projects aimed at increasing productivity and reduced production cost. We are confident that this will strengthen Texo's position as a key supplier to the PMC and Industrial fabrics market.

Jan Lindahl, TEXO Inc

TEXO PACIFIC CO. LTD.

Last year TEXO AB decided to take a step closer to our customers in the Asian region and in August 2008 we legalized our business license in China. Today the office is up running and we are located in Shanghai Waigaoqiao free trade zone (FTZ).

TEXO Pacific is happy to support you with spare parts and service for your looms or warp machines. Just feel free to contact us whenever you need prices and delivery times. We are open for suggestions and ideas.

Looking forward to supporting you in the future!

Magnus Johansson, TEXO Pacific Co. Ltd.

TEXO NEWS

→ **TEXO RAPIER REBUILD**

In our ongoing effort to make life easier for our customers and to increase the productivity in Texo looms around the world we have once again made a quantum leap in production speed, and fabric uniformity in the products woven in your Texo looms.

→ **TEXO HIGH SPEED LOOM - FSX**

We are proud to launch our latest step in loom evolution and present you with our high speed loom type FSX.

Please, read more on attached information sheets!

NEW TEXO FACES

I started at TEXO AB in January 2009, as Service Manager also in charge of the "after market". Earlier on I worked at Scania CV AB as team leader. Dealing mostly with quality questions in the field of delivery and production. Right before I came to TEXO AB I worked at Sauer-Danfoss AB with Lean Production and production quality.

I want you, as our customer, to feel how important you are to us, which means we will always strive to give you quick help with the highest quality.

*Martin Skagerholm,
Service Manager*

I came to TEXO AB in January 2009, responsible for the departments of Mechanical- and Electrical Designs, Developments and Logistics. I was previously Manager of Construction at Geringe AB and also Design Project Manager at Volvo Cars. After years of working in big corporations. I look forward to being closer to the staff and to get a bigger influence on the daily business.

My intention and goal is to put TEXO AB in the leading position in the development of looms, by making clear, well established decisions and by offering you exciting, high-class products.

*Per-Erik Kronqvist,
Technical Manager*

TEXO – Makes paper possible!

To be in one of toughest situations our world has experienced during the last decades is a challenge. Despite this TEXO has developed and launched an even broader machine program. I am proud of all the efforts made by ALL colleagues at TEXO in creating this. Our long term outlook is optimistic and we must, as a global market supplier, focus on developments that increase quality and productivity in our customers operations. Two examples of this (see TEXO NEWS) you can find enclosed in this issue.

I would also like to welcome our new managers, Per-Erik and Martin to the TEXO team.

*Anders Svensson
President TEXO AB*
