

TEXO SERVICE

Starting right now, we can offer you, as our customer, a powerful tool in your production. With a service agreement we take an active part in reducing your stop times by making the number of unexpected stops decrease. There are great advantages and money to be saved by having a TEXO technician at your plant to find problems before they occur. As per today we have two options of contracts depending on your needs, both running a year at a time and possible to revoke with three months of notice.

Advantages:

- ➔ Work on your machines will be performed during regular working hours.
- ➔ Trimming and adaptations for optimal production
- ➔ List of recommended spare parts
- ➔ Lubrication and changing of oil according to machine recommendations
- ➔ Free phone support with high priority
- ➔ We supply the latest version of WinTEXO and PLC program.
- ➔ Service at certain intervals
- ➔ Discount on spare parts
- ➔ Discount on other jobs on your machines

Martin Skagerholm
Service Manager

REORGANIZATION

To better meet the demands of a constantly quicker and more efficient development of technology we have reorganized our business by appointing three experts in technical and logistics areas. We have also moved the staff to make the most of our premises and create a better working environment for collaboration. With this we consider ourselves ready to take new steps forward.

EU DIRECTIVES

During the summer and autumn 2009 our technical department has been busy with the new directives published by the EU. Both mechanical and electrical principles have been scrutinised, calculated and approved.

TEXO SPECIAL

➔ NEW MACHINES

No success without effort! It has been a hectic time to develop new machines but we are proud to say: "We did it!" No development goes without problems but with our competent crew we have solved the issues as we went along. With our new line of machines FSX, TCX and TCR you will increase your productivity and business.

➔ OBSOLETE ELECTRICAL PARTS

When old electrical parts become obsolete, TEXO has the solution. We have developed rebuilding sets Lo-CoMo, OXO and NXO for weaving looms. Our cost effective rebuildings are very reliable and will enhance the standard of your looms dramatically.

Please contact our Sales Dept for further information.

TEXO – Makes paper possible!

Anders Svensson
President TEXO AB

Service has always been and will continue to be one of our guiding stars. Our goal is to support our customers, not only with machine equipment, but also with services that exceed your expectations. This ranges from having the right spare parts available at TEXO Sweden, USA (please read enclosure) or China to the complete service package that you can read about in this issue; all with the strive to help you reducing costs from unexpected down time as well as to ensure you quick, smooth and cost efficient spare part deliveries. The global financial crisis is still "kicking" us, but we are determined to stand strong once business is back to a more "normal" level.

Remember TEXO is only a phone call or an e-mail way!
